Are you using another curriculum alongside the eScience program? This match-up sheet will help you really bring the scientific principles from your textbook to life and show you which experiments and activities work best with the chapter you are on. **Note: The eScience program does not cover creation nor evolution so ALL families can participate. The conversion charts we provide are for most requested texts from our members.** For other curriculums, simply email us your TOC and we'll create a conversion chart for you.
